UNATTENDED CHILDREN POLICY

The Library Company of Burlington provides materials and services to meet the needs of our library patrons. We take special pride in providing a wide range of materials and services for children. However, it is beyond the scope of our resources to provide supervision for unattended children.

It is our policy that children younger than 10 years of age may not be left unattended in the library. All children under ten must be supervised by an adult while in the library. A minor may not supervise another child under the age of ten while in the library. This policy has been made to ensure the safety of young children while in the library.

Parents may not leave their children unaccompanied while in the library. All children 10 and under CANNOT be left alone in the “Children’s Area” without supervision by an adult or caregiver. Computer use may be restricted if children are left unattended.
